The Journal.

FRIDAY EVENING, SEPTEMBER 2, 1882.

DE. OLIVER WENDELL HOLMES celebrated his 85th birthday Monday at his home at Beverly Farms, receiving many visitors, congratulatory telegrams and letters, and presents from all parts of the country.

It has long been settled that the candidate for the first place on the state ticket will be, and from present appearances the Republicans will nominate Roger Wolcott of Boston for second place, and the Democratic candidate will no doubt be James B. Carroll of Springfield. Neither of the men are popular for the place, but both will accept if the party calls.

Several political refugees who had taken shelter on an American merchant vessel in Venezuelan waters were taken from it by force a few days ago, although the United States flag was flying over them and they were proclaimed to be under its protection, and now the glib-tongued Concord has been sent to inspire the officials of that country with a little respect for that flag.

Governor RUSSELL's nomination of David Seates of Northampton to be bank commissioner did not suit even the members of his own party, least of all those in Mr. Seates's own neighborhood, and a delegation of prominent Democrats from Northampton visited the governor on Monday to protest against him. In the meantime Mr. Seates had written a letter requesting the withdrawal of his name.

The hearing in the Borden murder trial ended at Fall River yesterday, the court finding Lizzie Borden "probably guilty" and holding her for trial at the November term. And yet many who have followed the evidence day by day will be struck by the apparent slight ground for such an action, the only thing which can seemingly be brought against her being the probability that she was in the house when Mrs. Borden was killed.

APPLICATIONS for receivers for the Iron Hall have been made thick and fast the past week in the different states in which the order has gained a foothold, and have been granted. Chief Justice Sonnen has been in Boston trying to restore confidence in the order, stating that its methods were perfectly practical and that it would be reorganized again under the laws of another state. If the victim go into it with the past experience they will be much like the Indian who said "If white man cheat me once, shame on him; if cheat me twice, shame on me," and they will receive very little sympathy.

Five Brooklyn members of the National Guard who were on duty at Buffalo, N. Y., during the recent labor troubles in their places filled their stations, their employers to take them back, and now those employers are to be prosecuted by Gen. McLean, commander of the Second Brigade. Which is as it should be, and it is to be hoped that some way of punishing them will be found. A man has a right to permit an employee to become a member of an organization of this kind, which compels him to swear allegiance to the state, and then discharge him if he is called upon for duty, knowing that a refusal to respond would mean public disgrace, if not worse.

SENATOR HENRY L. DAWES of Pittsfield announces that he will not be a candidate for reelection to the office which he has held for the past 18 years, and Massachusetts will lose a valuable servant in his retirement. With the same question as to his wife, he and Henry Cabot Lodge, Ex-Gov. Long, Speaker Barrett and Mr. Crapo were considered as likely to enter the lists. Mr. Lodge has frankly announced that he is a candidate, while Ex-Gov. Long says he is not. Mr. Crapo and Mr. Barrett have not been heard from as yet, but from past indications it is safe to say that the presiding officer of the last Legislature has his eye on something—what it is will probably be developed later. Mr. Lodge's frank avowal of his intention will doubtless help him in the canvass. Massachusetts voters like to see things open and above board.

The Springfield *Republican*, in looking over the political field, finds that "it now looks as though Charles L. Gardner of Palmer would be Mayor McClelland's Republican opponent for the district attorney contest." * * * Lawyer Nixon of Pittsfield would like the nomination, but the newspaper said of his efforts, "so far as in his power to do, he has been successful in Springfield's greed at the 1st congressional convention at Albany last spring is carried around in vest pockets, ready for use." * * * Mr. Gardner is a type of the public man of the day when the office was not limited so openly. His life in Ashfield and Northampton will give him help in those localities, but his friends must nominate him—he will not scrabble for it. He simply announces that if the Republican party wishes his services and nominates him, he will accept the office." The latter sentence is evidently the *Republican's* pleasure way of saying that if given the nomination there would be no doubt of his election.

Well all the odds that this is a civilized and enlightened community, there has been in many of the daily papers the past week, after the Borden murder hearing, has been a discussion of the merits and condition of the two brothers who next week will face each other to see which will stand the greatest amount of punishment before being rendered helpless. We are told that the flesh of one is firm and hard, with a color like that of a haly's, while the other is a little haly now but will be all right in a few days, as if animals and not humans were under discussion; and there are many who will agree that the brute nature is greatly in the ascendancy, both in the principles and their admirers. The worst of it is that the details of the disgusting affair may be looked for even in the papers which claim to have the highest moral tone, and be laboring hardest for the welfare of the general public.

This drowsed Asiatic cholera has made its appearance on this side of the water, the steamer *Wendham*, which arrived at New York Tuesday night, reporting 22 deaths on board during the passage of 15 days, two adults and 20 children. There is little danger of the disease gaining a foothold in this country through the seaports; the government officials are fully alive to the responsibilities of the times, and at New York all vessels from foreign shores were detained at quarantine from three to six days, the ships being thoroughly fumigated, and if there were immigrants their clothing subjected to a disinfecting before they were allowed to land. The other ports were not behind in their watchfulness. President Harrison has acted promptly in the matter by hastening home from his vacation in the mountains and issuing a circular closing the ports of this country to all vessels bringing in emigrants until such vessels shall have undergone a quarantine detention of 20 days. The danger threatens greatest along the Canadian line. The health regulations of that country are not at all good, and there is little prevention persons infected with the disease from landing there and thus crossing the line into the state. It was in this way that the cholera made its last appearance among us. While there is little danger of an invasion of the plague in this locality, it is better to be overcautious than to be careless, and much can be done toward prevention by the use of plain and well-cooked food, boiling water before it is used, with care as to the sanitary arrangements, and not allowing the accumulation of refuse about the premises.

Better Than Gold.

For You, For Me, and For All.

If you have that tired, wearisome, now and then sick, headachy, dizzies, pallid complexion, coated tongue—all these and many other symptoms are the warnings nature gives of the approaching disease. If you are in a bad spirit, it will lead to some dreadful disease and death. But it is needless to allow yourself to be thus afflicted, for we have the word of thousands of the best citizens of this country that Dr. David Kennedy's Favorite Remedy possesses the necessary properties to cure and restore to health all who will use it.

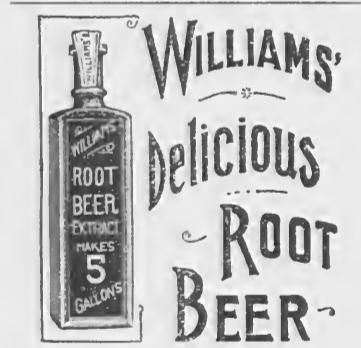

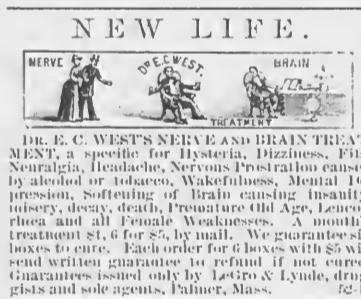

"I suffer from disease, disease, and despair; for two years physicians seemed to me no good, while I suffered most misery. I experienced such a maddening, strange, confused and deformed condition in my body that I was gone, but little strength and no mind for business, nor strength to go about my daily work. I was stagnated. I was told I had a slight shock of paralysis, and I must either wear it out or receive it fully. I was told I must die, and I did, thus under a doctor's treatment, when one day I said to myself, 'Why not take our family stand by Dr. Kennedy's Favorite Remedy?' I did, and when I had taken three bottles I felt like a new man, and to-day as well as the average man of my age, fifty-six." C. W. WILSON, N. Y.

Can any one in justice to himself, if he feels these symptoms, hesitate when such a sure and safe corrective as Dr. Kennedy's Favorite Remedy can be obtained?

LANE'S MEDICINE
All druggists sell it at 10c, 15c, and 20c per package, every day. LANE'S FAMILY MEDICINE MOVES THE STOMACH, CURES THE APPETITE, AND KEEPS THE KIDNEYS, AND IS A PLEASANT DRINK. This drink is made with herbs, and is prepared for use as easily as tea. It cures all diseases, and is a sure corrective for all diseases, diseases, and despair.

YOUR DEALER IN PAINT MAY have half a dozen kinds of paint in cans upon his shelves; the only difference you, as you don't know the best kind to ask for. Then, if you leave the choice to your dealer, you think he will want to sell you the one he makes the most money on—(quite natural!) What are you going to do? You want a good paint—a first-class paint—one that will wear well, look well, and be really economical. We don't mean cheap. A cheap paint may last a year, an economical paint, costing twice as much, may last five years. You are in doubt what to do? Try CHILTON and get a color card. For sale by LeGros & Lynde, Chilton Paint Co., New York or Boston.

Ripens Tabules—gentle cathartie.

Magistrate—"What is your age?" Rummy Moll—"Well, I don't rightly know, but I believe I have given you an idea." Magistrate—"Give me an idea, then?" Rummy Moll—"Well, you are a grown man, but I was a little girl, and now you air courtin' a woman who was a little girl when I was a grown woman." New York Weekly.

The homunculus was not many months old. "Well, darling," he asked as he took her in his arms on his return from the office, "shall we go out on our bicycles, or would you prefer that I should order the carriage?" "Darkest, she softly responded, gazing lovingly up into his eyes, "you know I am yours for what or who?"—New York Tribune.

There is more Cataract in the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven certain to be a constitutional disease, and therefore requires constitutional treatment. Hall's Caloric Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Good American Food.
You can talk about your gamey birds and fatty rolled groats.
A food that's good enough for me is pickled, home-made sauce; No "gory" pudding, "aged" kraft and other stuff like that; But sausages, and buckwheat cakes; And doughnuts fried in fat.

You may talk about your cheeses-back, I'll take some chicken fricassee; And oysters steamed with tripe, No trifles with diamond-back Which cost their weight in cash.

Give me some breasted "fif of pig" And honest corn beef.

Don't talk to me of "charlotte russe," "Meringues" and soft "crales," And other foolish things I put on my dinner plate.

Give me some pic—thick "puddin'" pie, Some custard, phoo or custard.

Some nice boiled elder apple sass Well "flavored up" with ginger.

Don't talk to me about the food You get when you're "abraded," It's all perfect bunting.

And a continual frost.

Whether it's Polish or Spanish That's the point that the punto, the German, Swiss or Russian, I don't want any talk.

No Chinese "bird's-nest" stuff for me, Nor state "Italy-an;" Give me home-made United States, Good plain American-bean.

AMONG THE PARAGRAPHERS.

THE GALLS' GIRL.
Of all the frocks of woman's mind, This most defies analysis.

The one that led her to him, She's sweet, she's "sophy," "sophy grand," She's good, she's "sophy" to babies.

"sophy" woman, nobly planned?

The Hebe fair, or who are they?

Or even the eye-glassed Pallases?

Skipped, vanoosed; for now's the day Of the mount-in girl, gallows?

The Journal.

FRIDAY EVENING, SEPTEMBER 9, 1882.

VERMONT's state election came this week, and as usual the state goes Republican, the majority being about 20,000.

African withdrawing the name of Edmund Senter of Northampton for savings bank commissioner, Governor Russell again presents the name of Irving B. Sayles of Milbury, which the council has several times rejected.

PRESIDENT HARRISON has given to the public his letter accepting the nomination for a second term, and it is a well-written and readable document. James G. Blaine is also out with a letter to the chairman of the Maine Republican state committee, in which he discusses the tariff, reciprocity and the national currency.

The pastor in Paterson, N. J., who refused last week to allow the flag draped the casket of a Grand Army man to enter the church, and also ordered the military hats of the pall bearers removed from it, can hardly claim that all his teachings are in the spirit which prompted this action the sooner his people let him go the better.

How they got! The endowment orders, like a flock of sheep, all follow the leader, and about a dozen, too. The latest to go into the hands of the leaders are the American Protective League, the Helping Hand, the Order of Safety, and the Union Endowment. Let them go,—no one wishes to stop them,—and the sooner the better for the certificate-holders.

The country is called upon to mourn the death of the Rev. John Greenleaf Whittier, which occurred at Hampton Falls, N. H., Wednesday morning, in the 84th year of his age. This followed close upon the death of Daniel Douglass, the great orator and lecturer, at Philadelphia on Monday, and the death of George William Curtis, editor of *Harper's Weekly*, last week.

A new way of dealing with drunkards has appeared in Wilkes-Barre, Pa., where instead of sending them to jail for 30 days they are taken to church and compelled to remain during the sermon. Thus a two-fold object is accomplished, the men are punished and the church attendance is increased. But from this class of attendance the net gain in the receipts of the contribution box would probably not be very great.

A SOMEWHAT peculiar state of affairs exists in Michigan, where numbers are not hanged. A convict serving a life sentence in the state prison for murder recently killed one of guards in a deliberate and cold-blooded manner, and there was no way to punish him for it. There is also nothing to prevent him committing as many murders as he may find opportunity for, with no fear of greater punishment than he is now receiving.

ARMED men of another great labor struggle in Michigan, where numbers are not hanged, a convict serving a life sentence in the state prison for murder recently killed one of guards in a deliberate and cold-blooded manner, and there was no way to punish him for it. There is also nothing to prevent him committing as many murders as he may find opportunity for, with no fear of greater punishment than he is now receiving.

The Journal.

FRIDAY EVENING, SEPTEMBER 16, 1892.

PRESIDENT HARRISON will have the heart-felt sympathy of all in the sickness of his wife, who is at Loon Lake, unable to be moved, suffering from a complication of disorders which are likely to prove fatal, although the physicians do not give up hope yet. Throughout the length and breadth of the land many prayers will be offered for her recovery.

Domestic internal dissensions in Venezuela have so extorted its borders that it now claims a considerable portion which up to the present time has been under the care of the United States, including valuable gold mines, so Admial Walker with the Chicago, Concord and Kearsarge, has been sent down there to look after American interests in that country.

From the present outlook it would seem that in any event Hampden county is to have a new sheriff next year, the probability being that the Democrats will not renominate Sheriff Brooks, but will try their fortunes with ex-City Marshal John H. Clune of Springfield. Against him the Republicans will be very likely to nominate Col. E. C. Clarke of Holyoke, with a most excellent record of electing him. He was a member of the ninth regiment, and has served in the local militia since its organization in 1863, besides being for seven or eight years commander of the Grand Army post in Holyoke, where he has lived for 16 years. In 1858 he was elected water commissioner of the city, and has held the office ever since. For the past 15 years he has been on the school committee of the city, for the greater part of the time having the endorsement of the Democrats, at the last election being nominated by them. He is probably as strong a candidate as the Republicans could put up.

It has been many years since Eastern Hampden has had even the Republican nomination for senator, the last time being in 1858, when Charles L. Gardner of this place was elected. Springfield has usually had the controlling voice in the matter, but now that she has the nomination of Col. E. C. Clarke of Holyoke, with a most excellent record of electing him. He was a member of the ninth regiment, and has served in the local militia since its organization in 1863, besides being for seven or eight years commander of the Grand Army post in Holyoke, where he has lived for 16 years. In 1858 he was elected water commissioner of the city, and has held the office ever since. For the past 15 years he has been on the school committee of the city, for the greater part of the time having the endorsement of the Democrats, at the last election being nominated by them. He is probably as strong a candidate as the Republicans could put up.

Five special trains from Boston are to be run over the Boston and Albany road next Sunday to carry the Grand Army boys to the encampment at Washington.

Capt. H. E. W., Clark, C. H. Hobbs, F. J. Wassum, H. N. Sedgwick and C. W. Cross appeared with the Knights Templar in the parade in Springfield to-day.

Round-trip tickets to the meeting of the Massachussets State Firemen's Association at Northampton will be sold over the Boston and Albany road for 90 cents.

The early morning train down on the Ware River road was delayed several hours yesterday by the breaking of a flange on one of the driving wheels of the engine.

The Flynn Building and Construction Company has just closed a contract with Schwarzkopf, Huber & Co. of New York to erect a silk mill in Altona, Pa.

This was a fair attendance at the Norfolk Jubilee Singers and cake walk in the opera house on Monday evening. The singing was excellent, the quartet being especially fine.

A. E. Park has resigned as treasurer of the Second Congregational parish, and the committee has appointed J. H. Tuthill to whom the pew rents are payable in the future.

The law was "off" parades yesterday, and as usual a large number of hunters were out after the game. W. J. and Silas Keith brought in seven partridges and three woodcock.

The dental room in Hatch's block are closed again, Dr. Walker leaving Saturday for New York state, and they will probably not be opened again until the new proprietor takes possession.

Cornelius H. Jagtong, who some months ago was run over by the coal train of J. F. Hager, and who was supposed to be fatally injured, has recovered sufficiently to be at work again.

The date for the appearance of the Walter Emerson Concert Company, announced last week as Oct. 31, has been changed to some time later in the season, not yet definitely determined upon.

The Columbian celebration on the 21st of October will be appropriately observed by the schools of the town. It is suggested that the celebration be a general one by all the schools of the town, in the opera house.

The validity of the quota of associate judges of the district court, caused by the death of Henry F. Brown of Brimfield has been filed by the appointment of Lawyer George H. Newton of Monson, who qualified yesterday.

Those who were on Main street Tuesday afternoon will not need to go to New York to hear "Tenera." The little Italian having been found in a field suffering from symptoms which seem to indicate that the trouble is cholera. At quarantine there have been several more deaths and new cases. One of the principal topics of the week has been the attempt of the health officer to land the cabin passengers of the Normannia or "Fire Island," and the resistance of the residents. The passengers protested against being kept on board with the cholera, when none of them were sick with it, and the state purchased a portion of the island for the purpose of removing them to it until all danger was past, the part which it was intended to use being some miles from any town. The residents of two towns, however, gathered with guns and prevented the landing of the passengers, and were compelled to let them have bedding, they being obliged to sleep in the open air on the bank. An injunction against their landing was presented, and then dissolved by the higher court, the governor ordered out a couple of companies of troops, and the passengers were finally landed.

HAILE AND WOLCOTT.

The Republican state convention met at Boston Wednesday, and as the result William H. Hale of Springfield and Roger Wolcott of Boston will be the standard-bearers of the party in the November election. The convention was a large one, 101 of the 127 delegates being absent. Hon. Charles H. Allen was chosen by Willard H. Howland of Chicopee, and was seconded by ex-Gov. Edmund of Springfield, and he was nominated by acclamation. The fight came for the candidate for lieutenant-governor, the candidates being Hale and Wolcott, and the first ballot resulted as follows:

Whole number of votes 1067

Necessary for a choice 540

John H. Adams of Lynn 411

Francis W. Breed of Lynn 151

Samuel N. Hart of Boston 2

Thomas N. Hart of Boston 2

The names of Mr. Darling and Mr. Breed were then withdrawn, and the second ballot, with 188 necessary for a choice, gave Mr. Wolcott 102 and Mr. Adams 473, the nomination of Mr. Wolcott then being made unanimous.

The full ticket named is—Governor—William G. Adams of Lynn; Lt. Governor—Roger Wolcott of Boston; Secretary of State—William M. Olin of Boston; Auditor—George H. Newton of Worcester; Treasurer—John H. Davis, Porter, Plympton, Frank D. Orcutt and Daniel Brown.

An excursion to Montreal, P. Q., for the Provincial Exhibition, is offered by the New London Northern road, at the rate of \$8.50 for the round trip, the tickets being good from the 12th to the 17th of this month, and for the return trip good until the 30th.

C. Julian Tuthill of this place, who is studying for the ministry at Andover, is to be married next Thursday afternoon at St. Louis, Mo., to Miss Isabella Stevenson of that city. Mr. Tuthill has been engaged to the pulpit at Newcastle, N. H., the coming year.

A change of time went into effect on the New London Northern road Monday, the only change at this station, however, being the putting of the \$2.50 a m. train for the south back to 8.30. The parlor car which has been running from New London and Brattleboro for a few weeks, was taken off.

The quarterly meeting of the Springfield Branch of the Woman's Board of Missions was held in the Congregational church Wednesday, but owing to the storm there was only a small attendance, something like 25 in the forenoon and 50 in the afternoon.

Some very interesting papers were read. The ladies of the local branch served a collation at the church.

Better Than Gold.

For You, For Me, and For All.

If you have that tired, worn-out feeling, now and then suffer from sick headache, dizziness, pallid complexion, coated tongue—all these and many other symptoms are the warnings of disease. The progress of your disease, if it is not speedily arrested, and no mind for business, Bowers irregular, and the constant desire to sleep, may lead to some dreadful ailment and death. But it is needless to allow yourself to be thus afflicted, for we have the word of thousands of the best citizens of this country that Dr. David Kennedy's Favorite Remedy possesses the necessary properties to correct and restore to health all who suffer.

I suffered disease, distress and despair, for over two years. Physicians seemed to do me no good, while I suffered until insanity. I experienced such a marked change, after taking Dr. Kennedy's Favorite Remedy, that I am now in full health, little strength, and no mind for business, Bowers regular, and the constant desire to sleep, has entirely left me. I now receive a full salary, and am a member of the Board of Directors of a large company. I am a doctor's treatment, when one day I said to myself, "Why not take my favorite Remedy, when I feel bad, and when I had taken three bottles I felt like a new man, and to-day as well as ever." — C. WILKINS, A. TON, N.Y.

Can any one in justice to himself, if he feels these symptoms, hesitate when such a safe and safe corrective as Dr. Kennedy's Favorite Remedy can be obtained?

It Cures Colds, Coughs, Sore Throat, Croup, Inflammation of the Lungs, and all Diseases of the Chest. It is a safe, simple, and a very useful medicine. It is in large bottles, and a very good one.

FRIDAY EVENING, SEPTEMBER 30, 1892.

PATRICK SAISFIELD GILMORE, the famous leader of Gilmore's Band, died at St. Louis last Saturday night.

THE strikers at Homestead still remain firm, and there is no knowing when or how the trouble will end. The affair has already cost the state of Pennsylvania over \$400,000.

The strike of the granite cutters, which began last May, has been settled, and the men are back at work. Neither side gained much of a victory, but the new scale of prices exists until May, 1893.

WHITE barbers often refuse to shave colored men, but the Lyon barbers are more enlightened, and refused to shave a colored clergyman of that city who applied to him for such service the other day.

TAXES ought to be a severe penalty for the fool who fires in a public building. At New York last Friday four people were killed and a large number injured in the stampede which followed such a shot in a Hebrew synagogue.

It is a possible thing Governor Russell proposes to have Irving B. Sayles of Millbury for savings bank commissioner, and yesterday sent in his name for the fourth time for confirmation by the council. The nomination was laid over for one week.

This section of the country has been flooded lately with the circulars of New York green goods men, and it was a New Haven reporter who opened a correspondence with one, met him by appointment in the former city, and was sharp enough to entrap him and have him arrested.

There is more cholera in the bay at New York, five new cases being reported on the steamer Bohemian on Tuesday, two of them fatal. It was intended to remove the immigrants from the steamer today, but a high wind prevented, almost providentially, it would seem.

More trouble at Venezuela. A vessel flying the United States flag was bearded in the harbor of La Guaira and captured, seized, in spite of the protests of the captain. He was wounded in shooting if he interfered, and after the soldiers had left the flag was hauled up. Our ships had not reached there at that time, more's the pity.

WITH the possibility of an epidemic of the cholera comes the question of the best method of disposing of the bodies of victims of the disease, and there is a growing feeling in favor of cremation. In no other way can the germs be effectively destroyed, and in other contagious diseases the public health would be enhanced by such a disposition. The time is coming when this will be the general form of burial.

THE coal trust is likely to get into trouble in the state of New York, the attorney general of the state having been instructed by the senate committee which has been investigating the Reading Railroad combine to begin at once such action as is necessary to annul the charters of such railroad corporations in the state, and to annul the leases of such foreign corporations as have joined with the Philadelphia and Reading road in the monopoly.

THE Iron Hall seems about as hard to kill as the battery in New Orleans. It was reorganized at Baltimore, Md., last Saturday, with all the old officers. Somerby at the head. Its the same thing over again—\$1000 in seven years for \$450, or \$500 in seven for \$250. Old members who are fond enough to go in are to receive certificates dated at the time of their entrance into the old order. Somerby was voted a \$10,000 purse for his trouble. Maryland can have the order, Massachusetts don't want it.

THE trotting and bicycle records go down like leaves before the autumn wind. Nancy Hanks has trotted a mile on a regulation track at Terre Haute, Ind., in 2:04, making the performance Wednesday afternoon, and unless she should succeed in lowering it herself the record will probably remain where it is for some time to come. The bicycle record for the mile is claimed at 1:36:35, made by John S. Johnson of Minneapolis with a try start on the kite-shaped track at Independence, Ia., the pace being set by a running horse.

HALL is refused Hugh O'Donnell, the leader of the strikers at Homestead, arrested on the charge of murder. It was expected that he would be released, but the judge ruled that the testimony showed the killing to have been done in a riot by a body of men who had a common understanding that they should resist all who opposed them, to the extent of taking life, if necessary, to accomplish their purpose; that O'Donnell was a party to this combination and that he was present at the ground with full knowledge of the acts of the rioters and giving them encouragement. It may be that O'Donnell did not actually kill any one with his own hand, but there can be no question that he was in a large measure directly responsible for the death of the men, and this decision of the judge may have a wholesome effect on the actions of bold-faced strikers in the future.

POLITICAL MATTERS.

The Republican nomination for representative in the ninth district is conceded to Monson this year, and it is not unlikely that Dr. G. E. Fuller will be the man.

The second congressional district Republican convention at Springfield Wednesday nominated Lawyer E. H. Gillett for the office, he having 65 votes on the informal ballot, to 41 for Sidney P. Smith of Athol.

The Democratic state committee for a delegate between the two candidates for governor, but it will not be accepted, as Mr. Hale does not pretend to be an orator.

Gen. Weaver, the People's Party candidate for president, who has been on a stamping tour through Georgia, has given up the job in disgust, having been rotted-egg at several places, in one of them Mrs. Weaver being struck in the head.

The Prohibitionists propose to run G. A. Parent of Springfield for representative in the tenth district, and have filed nomination papers for him. They also have a candidate for county commissioner in the person of Hubbard Lawrence of Palmer.

The Republican county convention, for the nomination of a sheriff, will be held in Springfield next Monday. There are three candidates in the field, Thomas Benton of Springfield, Col. E. P. Clark of Holyoke, and George W. Roraback of Westfield, with the chances in favor of one of the two first-named.

The Worcester-Hampshire district Republican semiannual convention at Ware yesterday afternoon was much tamer than was expected, as there were four candidates in the field, but G. H. B. Green of Belchertown walked off with the prize, receiving 20 votes on the informal ballot to 6 for W. B. Kimball of Enfield, 4 for H. C. Davis of Ware and 3 for S. P. Smith of Athol. The formal ballot was given Green 23, and the nomination was then made unanimous.

The Republican district attorney convention will be held next Monday at Chester, and the friends of Lawyer Charles L. Gardner of Palmer hope to secure his nomination. There is no doubt about the delegation from the end of the district, and enough votes are

looked for from the intermediate towns to give him a majority. The other candidate for the honor will be Lawyer Nixon of Pittsfield. The nomination has never come to the end of the district, and with Mr. Gardner's qualifications and ability there should be no question as to his receiving it on the first ballot.

The Democrats of the second district have nominated Edward H. Lathrop of Springfield for congress. Mr. Lathrop's career politically is somewhat a checkered one. In 1868 he was sent to the Legislature for one term by the Republicans, with the endorsement of the Democrats; in 1874 he left the Republican party and was sent to the senate by the Democrats, being elected district attorney by them the same year and serving three years; in 1876 he was nominated for secretary of state on the Democratic ticket; in 1878 he was nominated for congress by the Republicans and ran for mayor of Springfield on the Democratic ticket; in 1880 he was nominated for representative by the Republicans and elected, the Democrats endorsing the nomination, and was reelected in 1886 on the Republican ticket; in 1890 he was elected an alderman of Springfield by the Republicans.

The strike of the granite cutters, which began last May, has been settled, and the men are back at work. Neither side gained much of a victory, but the new scale of prices exists until May, 1893.

WHITE barbers often refuse to shave colored men, but the Lyon barbers are more enlightened, and refused to shave a colored clergyman of that city who applied to him for such service the other day.

Rev. Palmer of

Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Flatulence, Constipation, Sour Stomach, Diarrhea, and Feverishness. Thus the child is rendered healthy and its sleep **natural**. **Castoria** contains no Morphine or other narcotic properties.

"Castoria is so well adapted to children that I recommend it to you as a sure remedy to all your complaints." — H. A. ALEXANDER, M. D., New York.

"I use Castoria in my practice, and find it especially adapted to the afflictions of children." — ALEX. ROBERTSON, M. D., New York.

A great personal privilege is the observation I can say that **Castoria** is a valuable medicine for children, acting as a laxative and relieving the pent up bowels and general system in many cases. Many instances of its excellent effect upon their children. — Dr. G. C. Olson, Lowell, Mass.

Better Than Gold.

For You, For Me, and For All.

If you have that threat, wearout feeling, now and then, after a hard day's work, a bad complexion, crooked tongue—all these and many other symptoms are the warnings nature gives of the progress of premature decay, and if not speedily arrested will lead to some dreadful disease, death, or infirmity. You can't afford to be thus trifled with, for we have the word of thousands of the best citizens of this country that Dr. David Kennedy's Favorite Remedy possesses the necessary properties to correct and restore to health all who will use it.

"I suffered disease, distress, and despair, for over two years physician's seemed to do nothing but prescribe opiate infusions. I experienced such a muddled, strange, confused and deadened feeling in my head, that I could not be sure if I was well or ill, and no mind for business. Bowels irregular, and my liver and kidneys seemed stagnated, and I almost either wear it out or receive a little more and die. For two years I suffered this way, and was about to give up the ghost, when Dr. Kennedy said, 'Why not take our family stand—by Dr. Kennedy's Favorite Remedy?' I did, and in a few months I was 100% better, as well as the average man of my age, fifty-six." — Atton N.Y.

Can any one in his or her senses, hesitate when such a sure and safe corrective as Dr. Kennedy's Favorite Remedy can be obtained?

GOLD DOLLARS for 90 CENTS ARE NOT FOR SALE. They are worth 100 cents. When all-wool suits of clothes are offered for \$10 you don't believe that they are all-wool, do you? Now the same thing applies to paint.

The Chilton Mfg. Co. don't manufacture gold dollars or wool suits, but they do make a pure linseed oil paint, a certain amount of which is worth a gold dollar, and is not sold for 90 cents.

The gold dollar is the standard of measure among the sellers of paint. If you buy paint you want for your gold it is full value in quantity and quality, and you get it when you buy the CHILTON PAINT. It is what you may call a gold dollar paint. We have a color card for you. For sale by LeGro & Lynde.

FRIDAY EVENING, OCTOBER 7, 1892.

The concluding convention of the 8th district at Springfield Tuesday renominated Elisha Morgan of that city.

DR. JOHN H. DOUGLASS, one of the physicians who attended General Grant during his illness, died at Washington Monday.

ANOTHER of the short term endowment orders has gone up, the Fraternal Guardians of Philadelphia, which made an assignment last Friday.

HIRAM ATKINS, for years the acknowledged chief of the Democratic party in Vermont, and for 30 years the editor of the Montpelier *Argus and Patriot*, died last Saturday evening at the age of 59.

OWING to the illness of Mrs. Harrison the president will be unable to take part in the Columbian celebration at New York next week, and the government will be officially represented by Vice President Morton.

The latest phase of the Homestead trouble is the arrest of the members of the advisory board of the strikers on a charge of treason in making armed resistance to the law of the state. The action was at first charged to the Carnegie company, but Major General Snowden of the National Guard of the state announces that he is responsible for the charge.

The law compelling the use of interchangingable mileage tickets on the railroads of the state went into effect last Saturday, but the only road to comply with the provisions of the act was the New York & New Haven. On other roads where mileage is being increased the system was offered the conductors the name and address of the person presenting them, and they were allowed to ride. The roads claim that the law is unconstitutional, and will make a test case.

The Hampden county Republican convention in Springfield Monday resulted in the nomination of Col. E. P. Clark of Holyoke for sheriff, having 49 votes on the informal ballot, George W. Robarak of Westfield 21 and Charles M. Wright of Springfield 1, the only two candidates.

The regular meeting of the W. C. T. U. will be held in the parlors of the Congregational church next Tuesday afternoon at 6 o'clock.

A Republican caucus is called for next Thursday evening at the town house to choose delegates to the representative convention, to be held in the court room in this place on the 18th.

Shad blossoms have been found in town twice this fall, an unusual occurrence for this time of year. Miss Hattie Plumley, the manager of the telephone exchange, brought a sample to this office.

Rev. J. H. Moulton will leave Monday to attend the Universalist Young People's National Convention, to be held in Reading, Pa., going as a delegate from the Young People's Society of St. Paul's church.

The office of the telephone exchange is to be moved from the room in Commercial block, having been given two months in which to vacate, the landlord wishing the room for other purposes. The office has been in its present location so long, even since the exchange was started here, that it will hardly seem at home anywhere else.

A special train will be run to Willimantic next Thursday evening to accommodate those who wish to see the Bostonians in their New York success, "Robin Hood." There are 60 artists, and 10 in the orchestra. The train will leave Palmer at 6 p.m., and the fare for the round trip will be \$1. The leaving time at Moulton is 6:10, and the fare the same as from Palmer.

The office of G. F. Day & Co. in the corner house block, the old stand of A. E. Park, will be closed after the 24th of this month. Mr. Day has been in business in South Manchester, Ct., the firm being Hale, Day & Co., but now Mr. Day has bought out his partner there. The stock here will be offered at cost until the 24th, when what remains will be shipped to South Manchester.

From One Who Knows.

Such Wisdom But Few Possess. Once Miserable Now Happy.

I know of one I speak when I state that Dr. David Kennedy's Favorite Remedy is the best known to man for the cure of all diseases of the skin and blood, such as salt rheum, pimples, blisters, ulcers, sores and diseased bones. I suffered from a disease similar to bone from Oct., 1848, to August, 1849; yes, I mean the disease which describes, I am sure, the condition of your system, which you described. The pain was constant day and night. Through all those tedious months of suffering many were the medicines I tried, but the hind-knee growing worse all the time.

About this time a friend recommended to me a medicine called Dr. David Kennedy's Remedy. I concluded to give it a trial, and before I had used one bottle in part I was relieved from my pain in many months. The limb looked more like a piece of raw timber than bone. The skin was swollen twice its natural size. Recalling the effects of the pain was constant day and night. Through all those tedious months of suffering many were the medicines I tried, but the hind-knee growing worse all the time.

For love and wealth, fame, peace and health—
Alas! how often have
Since you were driven.

With Adam from the garden fair
To struggle through a world of care.

The forces these
That ever please,
That make for mortal happiness,
Who gets it first is not secure;

Longing to have it all the rest;

And happy he, who's he be
Whom with all these the gods shall bless.

I have no wealth,
No love, no health,
And yet I count me truly blest.

Oh happy he, who's he be
Who's got the wealth, the fame, the health,

No more shall others strife embate us,

For, after years of fight and tears,
We've got a little maid to suit us.

THE CENTAUR COMPANY, 77 Murray Street, N.Y.

From One Who Knows. Such wisdom but few possess, once misread, now happy.

I know well what I state when I say that Dr. David Remond's Favorite Remedy is the best elixir in the world for the cure of all diseases of the skin and blood, such as salt rheum, plagues, blisters, sores, scabs and discolored bones. I suffered from a diseased ankle bone from October, 1880, to August, 1881; yes, and I have had it ever since. Dr. Remond's Elixir in my system, which settled in the diseased limb, the pain was constant day and night. Through all those dismal months of suffering many were the medicines I tried, but the limb kept growing worse all the time.

About this time a friend recommended to me a man named Larkin, who had been to Remond's, and he said he had a sure cure for my limb. I had experienced in my limb for many months. The limb had been so bad that the knee was swelled twice its natural size, becoming so much swollen in its use, and at the present time the limb is entirely healed. I can walk as well as ever, and the limb is as strong as ever, its natural size and color. I want also to say that I used as an external application Dr. Remond's Elixir, and it was a great help to me. In connection with Favorite Remedy, the friends say the help I received is miraculous, and I am sure that all who are suffering will be greatly relieved by the remedies that will cure.

This testimony is given for the good of suffering humanity.

POSSIBLY LAST SPRING YOU CONSIDERED THE QUESTION OF PAINTING, but hardly decided that you would not get over until Fall, and perhaps until another Spring. Of course, it is poor economy to let the building go unprotected, and you should at once consider the question of colors and make up your mind when you are ready to paint, then engage the painter you know off.

A few hints may be of service to you.

Use nothing but pure Linseed Oil paint.

If two coats are to be applied to the house, have the first one liberally thinned with Raw Linseed Oil.

Be careful to see that the building is dry and never let the paint be applied over wet walls.

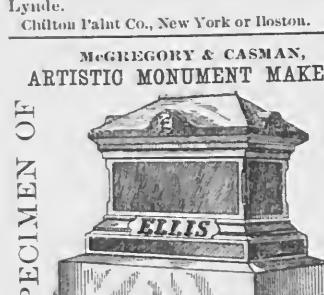

Get the best and most durable Paint, regardless of first cost, it is the cheapest in the end.

Investigate thoroughly the quality of the Chilton Paints.

Probably you can find a color card of some paint in your town, but if you have difficulty, send direct to the Chilton Paint Co., New York or Boston, and one will be sent you by mail. For sale by Lefroy & Lynde, Lynde Paint Co., New York or Boston.

In the Hospital.
How the wind yells on the gulf and prairie!
How it rattles at the window-pane!
And the rats squeak like our old ship's rigging;
I shall die with the turn of the tide.

I've had a rough life out there,
I've had a hard hand;
Now I'm like the broken hulk in the dock-yard—
I can't strew foot nor hand.

There are green trees in the Salem graveyard;
By the weeping-house steps they grow;

And there they put my poor old mother;

The third in the leeward row.

There's the low red house on the corner,
With a slate roof and well-ribbed behind;

And yellow-headed gables in the garden—
How I see it when I go inland!

I wish I had a mug of cold water!

From the bottom of that old well—
I wish my mother's face was here alongside,

Me a great deal of good I could have done.

Extract from a dime novel of the future: Then the pirate king shouted in excited accents, "What, ho! my lad! Here is the sight of the buried treasure. Heave up you bedded plate of brass and look beneath!" The noble Donio Maekrel forced back the bandits, and with one mighty swing of his sword clove the brazen ring in twain. There, carefully buried away in a jeweled casket, were two scuttles of coal, full to the brim!"—Chicago Tribune.

THE CENTAUR COMPANY, 77 Murray Street, N. Y.

From One Who Knows.
Such Wisdom But Few Possess. One
Miraculously Now Happy.

I know where I stand when I state that Dr. David Kennedy's Favorite Remedy is the best remedy in the world for all diseases of the skin and blood, such as skin rashes, pimpls, blisters, ulcers, sores, and diseased bones. I suffered from a diseased ankle bone from Oct., 1889, to August, 1891; yes, I suffered beyond words to describe. I had salt rheum in my system, which settled in the diseased bone, and when taken out of suffering many were the medicines I tried, but the limb kept growing worse all the time.

At this time a friend recommended to me a medicine called Dr. Kennedy's Favorite Remedy. I tried it, and before I had used one bottle up I began to feel relieved from the sharp, piercing pain, and in a few days I was well again. In two months, the limb looked more like a piece of raw liver than anything else. From the day I began to use Dr. Kennedy's Favorite Remedy, I received so much benefit from the first bottle I tell everyone to come and see it.

The limb is entirely healed. I can walk as well as before the sores broke out, the limb is now as strong as ever. I have used Dr. Kennedy's Favorite Remedy in an external application Dr. Kennedy's Salt Rheum Cream, made at Lombard, N. Y., in New York, and it is a great medicine. If you want the help I received is miraculous, and I believe God has given Dr. Kennedy the wisdom to prepare this medicine to be used for the good of suffering humanity.
